Consent Agenda Item (Action Item):

Second Reading to approve the recommended draft for the Floyd County Student Handbook for the 2026/2027 School Year

Applicable Statute or Regulation:

The Floyd County Board of Education must approve any revisions and/or updates to comply with Kentucky Department of Education guidelines. KRS 160.295 and KRS 160.290 give the responsibility for the operation of Floyd County Schools to the local school board.

Fiscal/Budgetary Impact:

There will be no cost to the district. Handbook access will be electronic only.

History/Background:

To better meet the needs of Floyd County students, a student handbook is an essential tool for establishing a structured, transparent, and consistent educational environment within our school district. As schools serve a diverse population of students, families, and staff, a centralized document that outlines expectations, policies, and procedures helps promote equity, accountability, and clarity across all campuses.

Recommended Action:

Adoption of the Floyd County Schools Student Handbook is recommended.
